

Micron Biopsy Punches

- Stainless Steel Tips
- Circular Sectioning Diameters from .300mm
- Expulsion Tube and Syringe Included
- Designed For Long-Term Use

The Zivic Micron Biopsy Punch is a stainless steel cannula ideal for dissection or removal (“punch”) of discrete tissue regions. Enabling the removal of specific brain nuclei, tracts and other subdivisions, biopsy punch applications include dissection for analysis of neurotransmitter concentrations of mRNA levels, preparation of regions prior to acute dissociation for patch recording, and tissue preparation for pharmacological analysis of neurotransmitters and metabolite changes in response to different pharmacological agents.

	<i>Catalogue #</i>	<i>Price</i>
5000 MICRON BIOPSY PUNCH (5.0 mm)	PUN500	105.00
